MAKING SPACES AGILE

Snug

[work-agile.com](http://work-agile.com)

# Making spaces agile

Born out of two decades of manufacturing bespoke reception areas, Workagile was created to design workplace furniture that explores the relationship between staff wellbeing and productivity.

With strong emphasis on the need for adaptability in today's ever-evolving workplaces, we conceive innovative designs that encourage communication, collaboration and creativity around the world.

We believe that a truly agile workplace will always provide choice and our ethos is all about creating spaces that offer just that; this is how we thrive in making spaces agile.

Agile working is all about creating a space that provides choice

## Modern aesthetics

Snug is more than just an occasional meeting space; it is the perfect focal hub and design feature for any working environment.

Fully customisable with multiple internal and external panel options, Snug enables you to create a booth to compliment existing aesthetics or even stand out in your work space.

# It's all in the detail

Look closely and you'll see the attention to detail that goes into all our products

Synergy Quilt Channel  
Corrosion

If the fabric you want isn't shown here, please call us on 020 3904 6688 & we can advise a price

## Approaching Salutogenesis

Salutogenesis is a medical approach focusing on factors that support health and well-being; an approach at the heart of our work in today's evolving workplaces.

The term itself means 'sources of health' and originates from the Latin word 'salus' (health) and the Greek word 'genesis' (source).

# Helping HSBC work agile

Workagile worked extensively with Axis Architecture and Insightful Environments to help bring the vision of HSBC, the world's local bank, to life. The brief outlined the importance of using the environment to create a vibrant and collaborative space. Snug products were utilised in such a way to create a cultural shift from a static to a flexible working environment within a contemporary, professional environment.

We remained on hand to advise throughout the process, providing samples, trials and designs to help ensure the furniture would suit the vision HSBC wanted for their new office.

“ The multi-functionality of Snug with its write-on walls was greatly appreciated ”

# As nature intended

We only use timber from sustainable sources, certified by the Forestry Stewardship Council (FSC®) and Programme for the Endorsement of Forest Certification (PEFC).

Our environmental management is evidenced by our ISO 9000 and ISO 14001 accreditation, as well as our partnerships with the FISP and the World Land Trust..

We even plant a tree for every order we receive to offset our footprint!
