Making spaces agile

Born out of two decades of manufacturing bespoke reception areas, Workagile was created to design workplace furniture that explores the relationship between staff wellbeing and productivity.

With strong emphasis on the need for adaptability in today's ever-evolving workplaces, we conceive innovative designs that encourage communication, collaboration and creativity around the world.

We believe that a truly agile workplace will always provide choice and our ethos is all about creating spaces that offer just that; this is how we thrive in making spaces agile.

Agile working is all about creating a space that provides choice

Multi-purpose functionality

Nimble provides flexibility within multi-functioning rooms. No paper? No problem. Choose a writeable surface finish and, with its folding mechanism, Nimble can be transformed from a meeting table to a presentation board within seconds.

The very same mechanism makes it quick and easy to fold up and store away your Nimble tables, freeing up the space for other activities.

It's all in the detail

Look closely and you'll see the attention to detail that goes into all our products

Connecting twist clips under the top hold the table in place when in use

Unique elliptical 60 x 30mm steel support frame for peak robustness & stability

Safety pin system keeps table folded securely. Simply release to unfold for quick & easy use

Provision for additional electrical or multimedia options, including cable entry module

Non-marking 100mm rubber swivel castors allow for smooth, simple movement

All table sizes are available with either squared or rounded corners

Cutting edge creations

Nimble tables are available in multiple sizes
which all fold up neatly for easy storage

Approaching Salutogenesis

Salutogenesis is a medical approach focusing on factors that support health and well-being; an approach at the heart of our work in today's evolving workplaces.

The term itself means 'sources of health' and originates from the Latin word 'salus' (health) and the Greek word 'genesis' (source).

As nature intended

We only use timber from sustainable sources, certified by the Forestry Stewardship Council (FSC®) and Programme for the Endorsement of Forest Certification (PEFC).

Our environmental management is evidenced by our ISO 9000 and ISO 14001 accreditation, as well as our partnerships with the FISP and the World Land Trust.

We even plant a tree for every order we receive to offset our footprint!
