# Making spaces agile

Workagile design and manufacture flexible furniture solutions that enable companies to adapt and flex as business needs change. We believe that a truly agile workspace will always provide choice, and Workagile furniture designs will do exactly that to any workspace.

Today's hybrid focused workspaces show a growing need for adaptability, and Workagile furniture solutions support this shift, encouraging productivity through enabling better collaboration, communication and creativity.

With a focus on modular and creative designs that are inherently sustainable through the option to re-configure and re-use, either within the existing area or in a completely new workspace, Workagile solutions will truly save you time, money and effort!

Agile working is all about creating a space that provides choice

## Collaborative buzz

A meeting room within a room, Shack booths give an 'out of the office' buzz to any meeting and allow you to feel connected to colleagues whenever you need to be.

Shack helps to create a collaborative feeling in any given space while enhancing productivity and promoting team spirit.

## Peaceful productivity

Meeting booths are ideal for allowing people to choose where they work for ultimate productivity; a key element to truly agile working.

Our single Shack booths offer a quiet, solo working space to take you away from your desk and any unwelcome distractions. With acoustic walls and optional lighting, Shack is the perfect private space for focus work or even to just read a good book.

# It's all in the detail

Look closely and you'll see the attention to detail that goes into all our products

Spot lighting included on all models

LUX versions available with upholstered interior panels

All booths available with or without back panel

Table & upholstered seats included on all models

Depth: 1900mm  
Height: 2100mm

**6 PERSON PITCHED ROOF**

Width: 2000mm  
Depth: 1900mm  
Height: 2254mm

## Creative presentation

Our booths encourage collaboration away from the usual, often uninspiring, meeting room to inspire creative and unique ideas.

As well as a wealth of upholstery options, you can accessorise Shack with audio screens to allow for presentations, different lighting options to create your desired atmosphere, and power modules to stay connected at all times.

## Approaching Salutogenesis

Salutogenesis is a medical approach focusing on factors that support health and well-being; an approach at the heart of our work in today's evolving workplaces.

The term itself means 'sources of health' and originates from the Latin word 'salus' (health) and the Greek word 'genesis' (source).

# Helping Falmouth Uni work agile

This project saw us work in collaboration with Architect and Designers Quay Studio to create a new work and recreation environment for FX Plus at Falmouth University. Quay Studio were looking for fun and unique products to encourage agile working and creativity; something we knew we could deliver. Specifically, they were looking at workspaces that enhance productivity and recreation areas to promote team building and recuperation.

After much research and thought, the teams decided to go for our Shack meeting booths. The sheltered area provides privacy and promotes a feeling of inclusivity between colleagues, focussing on the project in hand and increasing productivity.

Its 'den' feel brings meetings to life and provides a much needed, secluded breakout space and meeting space.

“ We ensured the project was delivered on time and on budget – key elements in all of our projects. ”

# As nature intended

We only use timber from sustainable sources, certified by the Forestry Stewardship Council (FSC®) and Programme for the Endorsement of Forest Certification (PEFC).

Our environmental management is evidenced by our ISO 9000 and ISO 14001 accreditation, as well as our partnerships with the FISP and the World Land Trust..

We even plant a tree for every order we receive to offset our footprint!
