# MiiBox 2.0

[work-agile.com](https://work-agile.com)

# our mission

Today's largely open-plan workplaces struggle to balance **focus with collaboration**.

Workagile solves this through adaptable **acoustic pods** and **modular tiered seating** that can both flex with evolving workplace needs.

We design and deliver solutions that elevate **productivity and connection**.

## Create Calm. Protect Conversations. Build Connection.

- **Create Calm** - Spaces that support users well-being, through individual focus areas and spaces that remove distractions.
- **Protect Conversations** - Designed to support confidentiality, giving peace of mind that conversations stay private and users feel confident in the workplace.
- **Build Connection** - Curated to bring people together and encourage collaboration and communication, with ability to flex with evolving workplace scenarios.

# guaranteed speech privacy

MiiBox 2.0 are tested to the new ISO 23351-1:2020, the cutting-edge standard revolutionising the acoustic landscape of workspaces, achieving Class B rating and 28dB of sound reduction.

This pioneering standard evaluates the speech reduction capabilities of phonebooths, workpods, and other furniture ensembles. A vital metric, DS,A (decibels/dB), gauges speech level reduction, forming the core of the first ISO standard dedicated to semi-enclosed furniture pieces.

Classified as A+, A, B, C, or D, acoustic office pods are distinguished by their speech level reduction efficiency. Opt for Class A+, A, or B for optimal speech privacy, ensuring conversations remain confidential and users can focus on tasks without external distractions.

Outlined in the chart below is the classification system of the standard. It's evident that for a standard office, the office pod or furniture ensemble must achieve a minimum sound reduction of 25 decibels/dB to guarantee speech privacy.

| CLASS        | SPEECH LEVEL REDUCTION (DS,A) | SPEECH PRIVACY GUARANTEED?        |
|--------------|-------------------------------|-----------------------------------|
| A+           | > 33 decibels/dB              | Yes                               |
| A            | 30 - 33 decibels/dB           | Yes                               |
| B            | 25 - 30 decibels/dB           | Yes                               |
| C            | 20-25 decibels/dB             | Depends on background noise level |
| D            | 15 - 20 decibels/dB           | Depends on background noise level |
| Unclassified | < 15 decibels/dB              | No                                |

## affordable customisable options

Designed for flexibility and affordability, the MiiBox 2.0 range features a variety of standard and premium exterior finishes, making it easy to personalise your working environment without compromising on cost. This customisation continues inside, with a choice of wall felt colours and soft furnishing designs to create a cohesive, comfortable workspace - all at an accessible price point!

# MiiBox 2.0

## features and benefits

### QUALITY SOUNDPROOFING

Achieving Class B 28dB, tested to the new ISO: 233351-1:2020 standard, keeping conversations private and muting the majority of office noise.

### SLEEK AND ELEGANT DESIGN

Available in a selection of neutral colours and natural wood effect sides, giving a clean and simple aesthetic which compliments the modern workspaces and architecture at an affordable price-point without compromising on performance.

### FAST INSTALLATION

MiiBox 2.0 can be installed within an hour in its upright position, minimising disruption within the office. The optimal solution for retrofitting meeting spaces in a busy workspace!

### PLUG AND PLAY

Powered by a standard wall socket, once plugged in, MiiBox 2.0 can be up and running within minutes. All Pods are provided with a UK 3 pin plug as standard (other plug types can be used upon request).

### ADJUSTABLE FEET AND CASTORS

MiiBox 2.0 comes with adjustable feet, allowing for a safe and stable positioning even on irregular surfaces. Castors are also included as standard, allowing installation flexibility and ease of relocation without disassembly.

### POWER MODULES

MiiBox 2.0 comes with UK Power, USB-A & USB-C (65W) as standard, so you always have access to power up your electrical devices. Additional sockets and types can be provided upon request.

### AUTOMATIC LIGHTING AND VENTILATION

The automatic lighting and ventilation is not only energy efficient, but will make sure the air inside the pod is kept fresh, and you don't have to worry about leaving the lights on.

### CUSTOMISABLE OPTIONS

MiiBox 2.0's hard surfaces are available in Black, Snow White, Anthracite or Fine Oak laminate and melamine finishes as standard. A selection of premium finishes are also offered to further elevate the design and aesthetic of any workspace. The soft interior felt is offered in Light Grey & Latte felt, with seating finishes available to customise.

These standardised components and material selections allow for our appealing price point, whilst maintaining flexibility in quality and high performing options.
